- Review high impact criteria
- Identify partners with a possible role?

**Next Meeting: April 19, 2018; 5:30 – 7:00 PM**

## Overarching Principles

The work of the Mayor's Commission on Lifelong Learning is intended to be accessible to, and to benefit, all citizens of Norfolk. Strategies that are relevant to specific target populations may emerge as high impact criteria are defined and prioritized. However, overarching principles reinforce the intention that lifelong learning is for all.

- Instill the desire to learn in all citizens.
- Help all citizens develop traits that will make them more adaptable, productive, self-supporting, curious, engaged, resilient, and prepared for taking leadership roles.
- Ensure inclusive opportunities.
- Support citizens in their efforts to be successful, understanding that the definition of success will be individual.
- Recognize that 21<sup>st</sup> Century learning may require a change in mindset across and throughout the community.
- Nurture the next generation of visionaries.
